

BENEFIT COVERAGE POLICY

Title: BCP-26 Home Health Care Services

Effective Date: 10/01/2020

Physicians Health Plan
PHP Insurance Company
PHP Service Company

Important Information - Please Read Before Using This Policy

The following coverage policy applies to health benefit plans administered by PHP and may not be covered by all PHP plans. Please refer to the member's benefit document for specific coverage information. If there is a difference between this general information and the member's benefit document, the member's benefit document will be used to determine coverage. For example, a member's benefit document may contain a specific exclusion related to a topic addressed in a coverage policy.

Coverage determinations for individual requests require consideration of:

1. The terms of the applicable benefit document in effect on the date of service.
2. Any applicable laws and regulations.
3. Any relevant collateral source materials including coverage policies.
4. The specific facts of the particular situation.

Contact PHP Customer Service to discuss plan benefits more specifically.

1.0 Policy:

Please refer to the member's benefit plan coverage guidelines for Home Health Care Services Benefit plans may include a maximum allowable benefit, either in duration of treatment or in number of visits. When the maximum allowable benefit is exhausted, coverage may no longer be provided, even if the medical necessity criteria are met.

For all non-network covered services to be paid at the network benefit level except for emergency/urgent services, prior approval is required.

Unlisted codes are subject to review.

This policy does not guarantee or approve Benefits. Coverage depends on the specific Benefit plan. Benefit Coverage Policies are not recommendations for treatment and should not be used as treatment guidelines.

Clinical Determination Guidelines:

A. Home Health Care services are covered when ALL the following are met:

1. Services are intermittent and for a limited amount of time until care can be transitioned to an outpatient setting, other than home; and
2. Provided in the home in lieu of hospitalization, a nursing care facility confinement, or going outside of the home for the service; and
3. Ordered by a physician; and
4. Services are necessary for treating an illness, injury or condition.
5. The member does not have to be considered homebound to receive services.

B. Skilled nursing care is considered medically necessary when ALL the following are met:

1. Skilled Nursing services are provided by a licensed registered or practical nurse; and
2. Services are directly related to an active treatment plan of care established by the physician; and

3. Skilled nursing care is appropriate for the active treatment of a condition, illness, disease, or injury to avoid placing the member at risk for serious medical complications; and
 4. Treatment provided is appropriate for the member's condition including the time (i.e., frequency and duration) spent providing the service.
 5. Examples of skilled nursing services include but are not limited to:
 - a. Observation and assessment where the physician expects a significant change in the patient's condition.
 - b. Management and evaluation of a care plan.
 - c. Teaching and training that requires the skills or knowledge of a nurse.
 - d. Administration of certain medications (e.g., intravenous, intramuscular, infusions)
 - e. Care and maintenance of catheter (e.g., urinary, chest tube, feeding tube)
 - f. Wound care, colostomy/urostomy care, tracheostomy care, central line care.
 - g. Rehabilitation nursing.
 - h. Venipuncture.
 - i. Psychiatric nursing.
- C. Physical, Occupational, and Speech Therapy services - See BCP-06 and BCP 57 for coverage guidelines and codes.
- D. Medical Social Worker (MSW) – services are covered when there is a qualifying skilled service in the home such as skilled nursing, PT, OT or ST. The following services of an MSW are covered when this qualification is met:
1. Assessment of the social and emotional factors related to a member's illness, the need for care, their response to treatment, and adjustment to care.
 2. Assessment of the relationship of the medical and nursing requirements to the home situation, financial resources, and the community resources available.
 3. Services provided on a short-term basis (two to three visits) to a member's family member or caregiver when it is shown that a brief intervention is necessary to remove a clear and direct impediment to the effective treatment of the member's medical condition or to the rate of recovery.
 4. Appropriate action to obtain community resources to assist in resolving the member's problem.
 5. The following types of MSW services are not covered under the Home Health benefit:
 - a. Services are directed toward minimizing the problems an illness may create for the member and family.
 - b. Services are provided to someone other than the member.
 - c. Preventive counseling, such as financial planning.
 - d. The sole purpose of a visit is to assist in completing routine forms (e.g., advance directives).
 - e. Services for which there is no specific reason or problem identified in the physician's order.
 - f. Services that can be handled by a lay person or other disciplines (e.g., calling Meals on Wheels).
- E. Home physician visits do not count toward the home health care visit limit.
- F. General exclusions from the Home Health benefit include:
1. Transportation of a patient.

2. Services that are provided primarily for the comfort or convenience of the member or custodial in nature (e.g., grooming, bathing, and dressing, toileting, getting in or out of bed).
3. Housekeeping services (e.g., cooking, shopping, Meals on Wheels, cleaning, laundry)

S9122	Home health aide or certified nurse assistant, providing care in the home; per hour	Home Health Care Services; exclusion for Custodial Care

3.0 Unique Configuration/Prior Approval/Coverage Details:

None.

4.0 Terms & Definitions:

Custodial care - non-covered services that:

- Are non-health related services.
- Do not seek to cure.
- Are provided when the medical condition of the patient is not changing.
- Do not require trained medical personnel.
- Are provided after stated clinical goals have been achieved.

Home health visit – an episode of personal contact with a member by home health agency staff, or by those under contract or arrangement with the home health agency, for the purpose of providing a covered home health service. Telehealth services are outside the scope of the Home Health benefit.

Intermittent skilled home care nursing – a visit of up to 4 hours in duration and prescribed on an intermittent (per visit) basis.

Private duty skilled nursing – services of a registered nurse (RN) or licensed practical nurse (LPN) that provide continuous 1-on-1 skilled nursing care. Typically prescribed on an hourly basis for tasks that require continuous nursing care.

Skilled care - skilled nursing, skilled teaching, skilled rehabilitation, and home infusion services when all the following are true:

- It must be delivered or supervised by licensed technical or professional medical personnel to obtain the specified medical outcome, and provide for the safety of the patient; and
- It is ordered by a physician; and
- It is not delivered to assist with activities of daily living, including but not limited to dressing, feeding, bathing or transferring from a bed to a chair; and

- It requires clinical training to be delivered safely and effectively; and
- It is not Custodial Care.

Determination of available benefits is based on whether or not skilled care is required by reviewing both the skilled nature of the service and the need for physician-directed medical management. A service shall not be determined to be "skilled" simply because there is not an available caregiver.
