

BENEFIT COVERAGE POLICY

Title: BCP-72 Infertility Services

Effective Date: 10/01/2019

Physicians Health Plan
PHP Insurance Company
PHP Service Company

Important Information - Please Read Before Using This Policy

The following coverage policy applies to health benefit plans administered by PHP and may not be covered by all PHP plans. Please refer to the member's benefit document for specific coverage information. If there is a difference between this general information and the member's benefit document, the member's benefit document will be used to determine coverage. For example, a member's benefit document may contain a specific exclusion related to a topic addressed in a coverage policy.

Coverage determinations for individual requests require consideration of:

1. The terms of the applicable benefit document in effect on the date of service.
2. Any applicable laws and regulations.
3. Any relevant collateral source materials including coverage policies.
4. The specific facts of the particular situation.

Contact PHP Customer Service to discuss plan benefits more specifically.

1.0 Policy:

Coverage of diagnostic and treatment services associated with infertility is dependent upon medical and prescription drug benefit plan language.

For all non-network covered services to be paid at the network benefit level except for emergency/urgent services, prior approval is required.

Refer to member's benefit coverage document for specific benefit description, guidelines, coverage, and exclusions.

A. Infertility is defined as ONE of the following:

1. The inability of opposite-sex partners to achieve conception after at least one year of unprotected intercourse.
2. The inability of opposite-sex partners to achieve conception after six months of unprotected intercourse when the female partner trying to conceive is age 35 years or older.
3. The inability of a woman, with or without an opposite-sex partner, to achieve conception after at least six trials of medically supervised artificial insemination over a one-year period.
4. The inability of a woman, with or without an opposite-sex partner, after at least three trials of medically supervised artificial insemination over a six-month period of time when the female partner trying to conceive is age 35 years or older.

B. The following services are covered as medically necessary, when performed to establish the underlying etiology of infertility:

1. Evaluation of the female factor:
 - a. History and physical examination.
 - b. Laboratory tests: thyroid stimulating hormone (TSH), prolactin, follicle stimulating hormone (FSH), luteinizing hormone (LH), estradiol, progesterone.

- c. Ultrasound of the pelvis.
 - d. Hysteroscopy.
 - e. Hysterosalpingography.
 - f. Sonohysterography.
 - g. Diagnostic laparoscopy with or without chromotubation.
2. Evaluation of the male factor:
- a. History and physical examination.
 - b. Semen analysis: two specimens at least one month apart, to evaluate semen volume, concentration, motility, pH, fructose, leukocyte count, microbiology, and morphology.
 - c. Additional laboratory tests: endocrine evaluation (including FSH, total and free testosterone, prolactin, LH, TSH), anti-sperm antibodies, post-ejaculatory urinalysis.
 - d. Transrectal ultrasound (TRUS), scrotal ultrasound.
 - e. Vasography and testicular biopsy in individuals with azoospermia.
 - f. Scrotal exploration.

S4031	Sperm procurement and cryopreservation services; subsequent visit	Benefits and Coverage; Maternity Services exclusions

ICD-10 DIAGNOSIS CODES (list is not all-inclusive)	
Code	Description
N4601	Organic azoospermia
N46021	Azoospermia due to drug therapy
N46022	Azoospermia due to infection
N46023	Azoospermia due to obstruction of efferent ducts
N46024	Azoospermia due to radiation
N46025	Azoospermia due to systemic disease
N46029	Azoospermia due to other extra-testicular causes
N4611	Organic oligospermia
N46121	Oligospermia due to drug therapy
N46122	Oligospermia due to drug therapy
N46123	Oligospermia due to infection
N46124	Oligospermia due to obstruction of efferent ducts
N46125	Oligospermia due to radiation
N46129	Oligospermia due to systemic disease
N468	Other male infertility
N469	Male infertility, unspecified
N970	Female infertility associated with anovulation
N971	Female infertility of tubal origin
N972	Female infertility of uterine origin
N978	Female infertility of other origin
N979	Female infertility, unspecified
Z3181	Encounter for male factor infertility in female patient
Z3183	Encounter for assisted reproductive fertility procedure cycle
Z3184	Encounter for fertility preservation procedure

3.0 Unique Configuration/Prior Approval/Coverage Details:

ASO group L0001631 plans exclude all treatment and services with diagnosis of infertility.

Commercial group L0001102 covers artificial insemination as shown below (all other plans exclude it).

COVERED CODES

Code	Description	Prior Approval	COC Reference

89264	Sperm identification from testis tissue, fresh or cryopreserved	N	Benefit and Coverage; Maternity Services

4.0 Terms & Definitions:

Adnexal mass – a tumor or mass that is located on any of the organs next to the uterus

Artificial insemination (AI), intrauterine insemination (IUI), or intracervical insemination (ICI) – introduction of semen into the vagina, uterus or oviduct through a transcervical catheter.

Endometriosis – a gynecologic condition in which symptoms include chronic pelvic and/or abdominal pain and infertility

Hysterosalpingogram – a procedure usually done in the radiology department where contrast (dye) is injected into the uterine cavity through the vagina and cervix to determine if the fallopian tubes are patent.

Hysteroscopy – a surgical procedure used to diagnose or treat problems of the uterus.
